Dear Commissioner Boice,

The library community in Oregon was very pleased to see that information regarding the upcoming ballot Measure 10-145 was available on the Douglas County Library's website. Thank you for working to make that possible. As of last week, I have asked that an update be posted to the People for Oregon Libraries site and our listserv, Libs-OR, and I have informed the EveryLibrary group—whose members added their voices to the issue.

The access and availability to fair and impartial information to voters was a concern that certainly resonated with the community. Your response and communication were appreciated.

Again, thank you for your attention to this matter.

Sincerely,

Elsa Loftis
President, Oregon Library Association
